For people with more complex financial situations, FinanceGPS, a professionally managed account solution, provides ongoing monitoring and management of their investments.

Creative Planning has combined our extensive plan knowledge, investment philosophy, and fiduciary advice service with Empower's participant experience to provide tailored, personalized recommendations to meet each person's unique needs.

FinanceGPS provides people with :

How FinanceGPS and Online Advice work

FinanceGPS is customized using a multi-dimensional approach based on additional information provided by the plan and the individual. The result is a more personalized saving, investment, and retirement income planning strategy coupled with advice.

Evolve your qualified default investment alternative (QDIA) with a modern approach designed to help people pursue their financial freedom and feel more confident about their future

Empower Dynamic Retirement Manager* as a QDIA

Through ERISA, Dynamic Retirement Manager qualifies as a “safe harbor” for plan fiduciaries investing assets for individuals in the plan in certain types of QDIAs in the absence of them providing investment direction.

Dynamic Retirement Manager offers two professionally managed investment solutions: Target date funds for people starting their careers and professionally managed accounts for those closer to retirement who may have more complex financial needs.

Empower Dynamic Retirement Manager offers plans a dual QDIA

Here's how the process works:

TARGET DATE FUND (TDF)

Solely based on age, TDFs can be a good initial start for younger people.

TRANSITION CRITERIA

Automatically transitions individuals who have more complex financial situations as they age. (Typically, the trigger age is 45-50 years of age.)

FINANCEGPS

Professionally managed accounts provide people with a more personalized saving and investing strategy and retirement income planning.

The benefits of fiduciary advice

We're here to help guide your employees and provide answers throughout their investment journey with consistent communication, tools, and advice at no additional cost.

People can access investment professionals (and may include their spouse or partner in the discussion if they would like) to get the advice and confidence they need at a time that works best for them.

Advice conversations can take place at any time:

- ✓ Simple account check-ins.
- ✓ Planning for life events (marriage, expecting a child, retirement).
- ✓ Addressing questions about their current strategy.
- ✓ Reviewing goals or making changes.
- ✓ Reviewing potential income sources.
- ✓ Reviewing personalization for a more customized strategy.
